

## Instructions for Entering Pharmacy Compounding Data

To begin entering information about your pharmacy's dispensing or distribution of compounded human drug products, log into your existing Business e-Profile or create a new Business e-Profile at <https://dashboard.nabp.pharmacy/Login/Splash>. If you need help creating a new Business e-Profile, please see our [FAQs](#).

Once you have logged into your e-Profile, select the facility that you want to enter compounding information for and select the Compounding Details tab on the facility landing page.

The screenshot shows the NABP Business e-Profile dashboard for a facility named "AnnJulyTesting". The dashboard includes a header with the NABP logo, a navigation bar with "Select Business", "Business e-Profile", and "e-Profile ID: 1435332". The main content area is titled "July Testing" and features a large circular progress indicator showing 100% completion. Below this, there are several data tabs: "Contacts" (2 items), "Ownership" (100%), "Activities" (18 items), "Licenses" (148 items), "History", and "Compounding Details". At the bottom, there are additional tabs for "Business Hours", "Storefront", and "Schematic".

Day	Hours
Sunday	Open 24 Hours
Monday	Closed

Compounding activities must be reported by calendar year. If you have never submitted compounding data through your Business e-Profile, you will be prompted to select a year from the drop-down menu.

 NABP 

[Business e-Profile](#) [Compounding Details](#) e-Profile ID: 1435332

Provide details about your business' 503A compounding practices for a particular year. Responses are **not editable** once submitted. Ensure your details are accurate and truthful.  
Distribution of compounded human drug products interstate means that a pharmacy or physician has sent (or caused to be sent) a compounded drug product out of the state in which the drug was compounded.

For the calendar year  (-).

**No previously submitted responses are available. To provide your responses, please select a particular year.**

Once you select the year, requests for specific compounding data will populate the form so that you can report it. For specifics on what data is being requested, visit our [website](#) and scroll down to review the information in the Data Collection section.
