USP COVID-19 Vaccine Handling Toolkit: Operational Considerations to Support Confidence, Trust, and Quality

Activity Overview

Identifying and addressing operational efficiency gaps is key to overcoming challenges around the preparation, transportation, and administration of the COVID-19 vaccines.

During this webinar, you will receive an in depth look at [US Pharmacopeia's \(USP\) COVID-19 Vaccine Handling Toolkit](#), which provides critical information to health care practitioners handling the COVID-19 vaccine. The toolkit helps accelerate delivery and supports safe handling of the COVID-19 vaccines, while maintaining quality and the public's trust.

You will also hear from a frontline pharmacist who will share lessons learned administering the COVID-19 vaccines and instilling confidence and trust for patients. This home study webinar is a recording of the live activity that was held on March 25, 2021.
