CPE Activity Information

Access Is Crucial for Patients With Opioid Use Disorder: Expanding Pharmacists' Role in MAT

Activity Overview

Despite various efforts to tackle the opioid epidemic, it rages on and continues to claim lives. Medication-assisted treatment (MAT) with buprenorphine has proven to be life-saving; however, many patients encounter difficulty and are stigmatized when attempting to find treatment. Pharmacists are the most accessible health care practitioners who can help lead the charge and provide MAT to patients through various means. Attendees will learn from pharmacy regulators and other experts how pharmacists on the front lines can provide MAT through collaborative practice and emergency use authorization to help patients suffering from opioid use disorder (OUD) and address the opioid epidemic.

This home study webinar is a recording of the live activity that was held on May 13, 2021 and was sponsored by Rite Aid.

Universal Activity Numbers	0205-0000-21-033-H08-P 0205-0000-21-033-H08-T
Activity Date	10-Jun-21 through 31-Aug-22
Activity Type	Knowledge-based
CE Credits	1 contact hour (0.1 CEU)
Activity Fee	\$20

Target Audience

This activity was designed to meet the educational needs of pharmacists and pharmacy technicians in all practice settings.

Learning Objectives

At the conclusion of this webinar, participants will be able to:

1. Explain the use of MAT in the strategy to address the opioid epidemic
2. Discuss the pharmacist's role in increasing access for OUD patients seeking care
3. Describe how regulatory changes could allow pharmacists to prescribe and dispense MAT by various means

CPE Requirements

To earn ACPE-accredited CPE for this activity, participants must:

- submit the activity code online using the NABP CPE submission site located at <https://nabp.pharmacy/claimcpe>,
- complete the activity in its entirety,
- answer the self-assessment questions at the beginning of the webinar, and
- review the activity handouts.

To obtain CPE credit, participants must also complete activity and speaker evaluations as well as pass the post-test with a score of 70% or higher.

All home study CPE submissions must be completed online within 60 days from the date the activity code is submitted online.

Presenters

Michelle Geier, Psychiatric Clinical Pharmacist Supervisor, San Francisco Department of Public Health

Paul D. Tonko, United States Congressman

Home Study
