

DISTRIBUTOR ACCREDITATION INELIGIBILITY MATRIX

Drug Distributor Accreditation & OTC Medical Device Distributor Accreditation

If an X appears by your facility type and your facility performs the corresponding activity, it is ineligible to pursue Drug Distributor Accreditation or OTC Medical Device Distributor Accreditation

This Distributor Accreditation ineligibility matrix is subject to change by NABP without prior written notice at any time, in our sole discretion. The latest version of this ineligibility matrix will be posted on the NABP website, and should be reviewed. Your continued participation in the process of application after a posted change in the ineligibility matrix will constitute your acceptance of and agreement to such changes. In addition, NABP reserves the right to consider each facility's circumstances individually, without reference to others.

Activities <i>("Drugs" are prescription drugs; "Devices" are prescription devices and diagnostic OTC medical devices pursuant to a prescription)</i>	Wholesale Distributors	Reverse Distributor	3PL	503B <i>(does not purchase finished drugs for compounding)</i>	503B <i>(purchases finished drugs for use in compounding)</i>	Prescription medical device distributor <i>(no drugs or convenience kits with drugs)</i>	Prescription medical device distributor <i>(convenience kits with drugs)</i>	Repackager <i>(Does not take ownership)</i>	Repackager <i>(Takes ownership)</i>	Veterinary Drug Distributor <i>(distributes no human drugs)</i>	Veterinary Drug Distributor <i>(distributes human drugs)</i>	Samples Distributor	API Distributor/ Repackager	Investigational Drug Distributors	Manufacturers	Virtual Distributor	Virtual Manufacturers	OTC Medical Device Distributor

Wholesaling 503B compounded products	X			X	X											X	X	
Unwilling to modify a business model that currently includes purchases not from a manufacturer or a WD that purchased from a manufacturer																		X

Please Note:

- When seeking licensure in states requiring either NABP accreditation or an active accreditation application, facilities must consider the time required for inspection completion and a decision by NABP whether the facility is eligible to pursue accreditation.
- All regulators may not accept a Supply Chain inspection to satisfy requirements. If this is a needed outcome for an applicant, it is suggested affirmative written confirmation from the regulator is obtained before submitting an application.
- Following inspection, all facilities will not be eligible to pursue accreditation. This applies to new applicants and currently accredited facilities. If currently accredited, and following inspection it is determined the facility is ineligible to apply for reaccreditation, the facility's accreditation will be canceled.
- Facilities must be operational for 30 days before completing an inspection.
