

SOUTH DAKOTA BOARD OF PHARMACY

newsletter to promote pharmacy and drug law compliance

South Dakota Board Welcomes Newly Registered Pharmacists and Pharmacies

Congratulations to the following 13 candidates who recently met licensure requirements and were licensed as new pharmacists in South Dakota: Kaitlin Bolinske, Mackenzie Carlbom, Lyn Feisthamel, Edward Fingers, Ashley Lacey, Hau Mo Lau, D'Aryn Lends His Horse, Alex Ogren, Elizabeth Petkac, Morgan Sandersfeld, Amanda Wells, Caleb Whitmyre, and Lindsie Wilde.

There were three new South Dakota full-time pharmacy licenses issued: Lewis Family Drug, LLC, dba Lewis Family Drug #48, Watertown, SD, License #100-2083; Hy-Vee, Inc, dba Hy-Vee Pharmacy Fulfillment Center (4069), Sioux Falls, SD, License #100-2084; and Lewis Family Drug, LLC, dba Lewis Family Drug #49, Plankinton, SD, (telepharmacy) License #100-2085. There was one new part-time South Dakota pharmacy license issued: Avera McKennan, dba AMG Family Health Center – Dawley Farm Emergency Department, Sioux Falls, License #200-1759.

Donated Drug Redispensing Rules Effective November 27, 2022

The Interim Rules Review Committee met on November 1, 2022, and after Board testimony and legislator questions, certified that Administrative Rules of South Dakota (ARSD) 20:51:35 could move forward to final form. The rules became effective on November 27, 2022, and can be found on the South Dakota Legislative Research Council website here: [ARSD 20:51:35](#). The programmatic forms, database, and details are being finalized. Keep an eye out for these if you are interested in participating.

PDMP at Risk of Losing Federal Funding for Statewide Gateway

The South Dakota Prescription Drug Monitoring Program (SD PDMP) was approved for the 2018 Harold Rogers PDMP Enhancement Grant to pay for NarxCare and Statewide Gateway Integration of the SD PDMP into the medical record and pharmacy management system workflow. While the 2021 grant was approved by the Department of Justice (DOJ), the funds still have not been released by the DOJ over one year later. The Board has exercised available options to continue funding the one-click access to PDMP, and shutting the funding down will be the last resort. Please plan to hear from Bamboo Health to determine costs moving forward.

Board FAQs for Pharmacists, Technicians, and Interns

By Hannah Juracek, South Dakota State University P4 Regulatory Rotation Student

The mission of the South Dakota Board of Pharmacy is to protect and promote the health and safety of the public by supporting pharmacists and pursuing the highest quality pharmaceutical care through education, communication, licensing, legislation, regulation, and enforcement. Here are some frequently asked questions (FAQs) and their corresponding answers to help navigate the Board's requirements and [website](#):

- When is it necessary to notify the Board of personal information changes?
 - Pharmacists, technicians, and interns must notify the Board within 10 days of changes in name, address, and employment.
 - To update name or employment: From the Board home page, select a profession from the panel on the left, then select Change of Name or Employer Form. Complete the sections on the fillable pdf and email to pharmacyboard@state.sd.us.
 - Name changes must be accompanied by a copy of the document supporting the name change (eg, marriage license or divorce decree).
 - To update address: log in to your licensing profile and update the information. Email, phone, and fax can also be updated via this route. The link for the online sign-in is https://sdbop.igovsolution.net/online/User_login.aspx.
- How to print a license?
 - Licenses can be printed after logging in to your account. Starting from the home page, select your position on the left panel, then select the online renewal link. A login page to your online profile should open; enter your username and password and select either "individual" or "business." Under registration information, select

print on the right side of the screen. The link for the online sign-in is https://sdbop.igovsolution.net/online/User_login.aspx.

- What can be done if a username/password for the Board's licensure portal is lost?
 - It is important to record both the username and password used for the Board's licensure portal as there is no option for a forgotten username online. For password retrieval, click on Forgot Password and follow the prompts to reset it. If the username is not available, you can call the Board office at 605/362-2737 for assistance.
- How does a technician submit CE credits to the Board?
 - The Board does not play a role in technician certification and only needs to receive proof of certification. The Pharmacy Technician Certification Exam and the Exam for the Certification of Pharmacy Technicians are two national certification examinations that registered technicians are approved to take for certification. Continuing education (CE) credits for certification and renewal must be submitted to your respective credentialing organization.
 - Remember, technicians must be registered within 30 days and certified within two years of employment start date. Notify the Board of certification as soon as possible by emailing the certificate to pharmacyboard@state.sd.us.
- How does a pharmacist submit CE credits to the Board?
 - The Board no longer requires proof of CE credits to be included in a pharmacist's license renewal application. An attestation to completion of the hours is required instead, and the Board is required by law to audit CE records.
 - Each pharmacist is responsible for keeping records of their CE.
 - Accreditation Council for Pharmacy Education-accredited continuing pharmacy education (CPE) is reported by the provider to the National Association of Boards of Pharmacy® e-Profile. Log in to your NABP e-Profile account to view the CPE credits that have been reported on your CPE Monitor® transcript. If attending CE that is approved by the Board, keep the participation certificate. Board-approved CE counts toward the required 12 hours.
- How often does an intern submit non-IPPE/non-APPE required hours to the Board?
 - A **Practical Experience Affidavit** must be submitted to the Board before beginning non-Introductory Pharmacy Practice Experience (IPPE)/non-Advanced Pharmacy

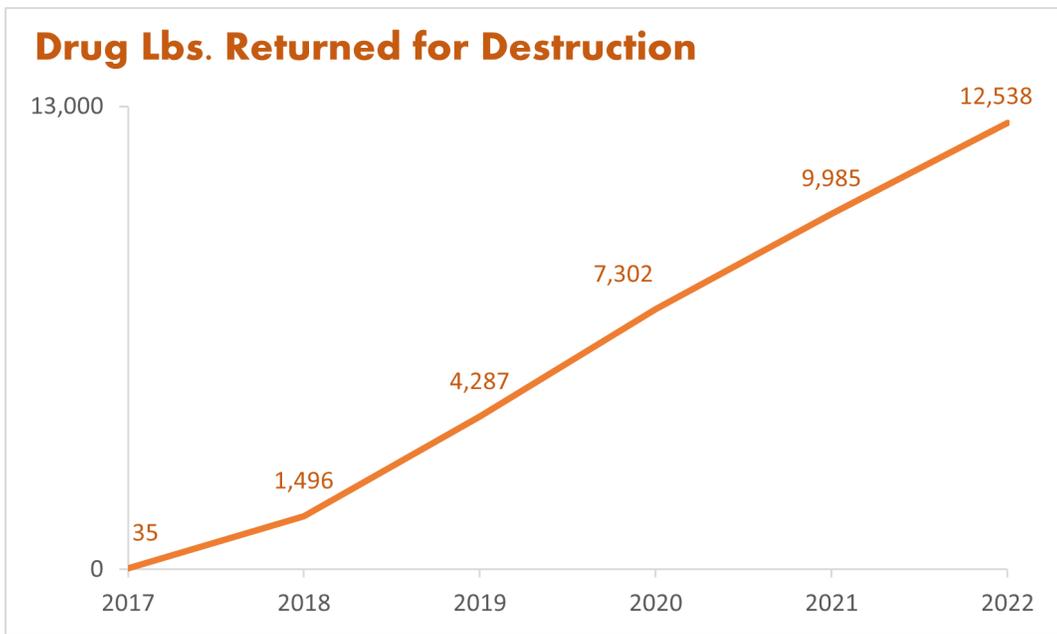

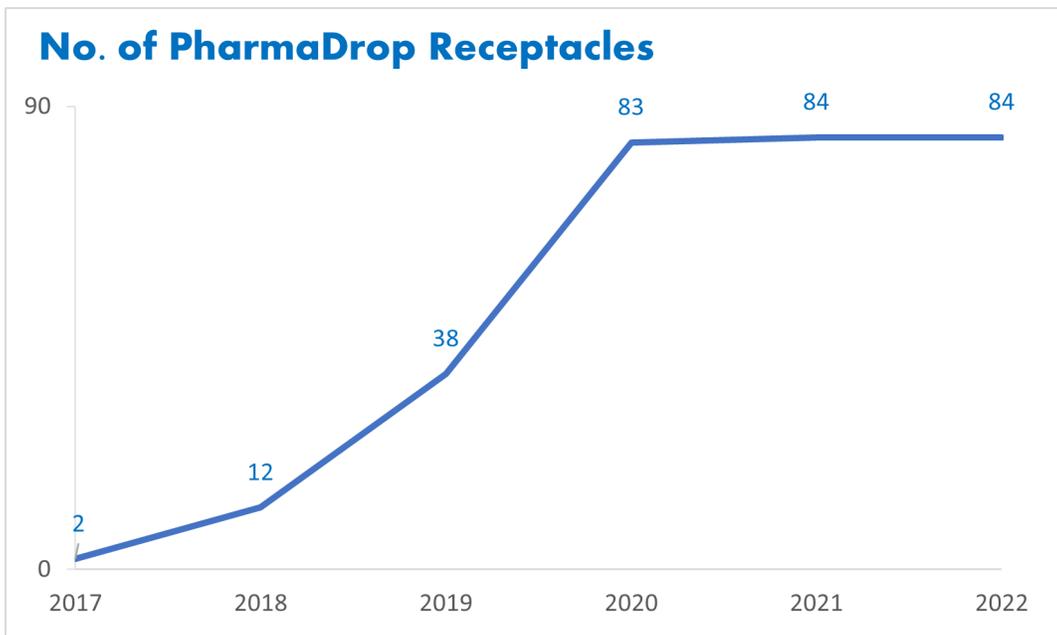

Practice Experience (APPE) internship hours. If a change in the site or preceptor occurs, a new affidavit must be filed before logging hours for the internship.

- Hours should be tracked using the [Practical Experience Internship Hours Form](#). Each submission of hours should be reported to the Board five days after the end date of the reporting period. The end of the reporting period is the last day that hours are being recorded on the form. If the submission is late, 5% of hours will be deducted. Review other reporting requirements on the form.
- A [Progress Report of Internship Form](#) should be submitted with every Practical Experience Internship Hours Form. The top section of the form is completed, signed, and dated by the student while the preceptor completes the evaluation and verification sections of the form. The time range listed on this form should correspond with the dates being reported on the hours form.
- All forms can be found under the Interns tab on the Board's home page. All forms should be signed by the same preceptor unless a new affidavit is submitted to report a change in preceptor.
- The Board's preferred method for receiving documents is via email at pharmacyboard@state.sd.us.

PharmaDrop Drug Take-Back Program

By Melissa DeNoon, PDMP Director

For years, pharmacists in South Dakota voiced their concerns to the Board about the lack of easily accessible drug take-back receptacles for their patients and the public. The availability of drug take-back receptacles is key in reducing the avenue of diversion created by unused, unwanted, and expired drugs in an individual's medicine cabinet. The Board established a drug take-back program, placing Trilogy MedWaste's PharmaDrop receptacles in South Dakota hospitals and retail pharmacies. Since its inception in 2017, the program has placed 84 [permanent drug take-back receptacles](#) across South Dakota and enrolled an additional five locations that had their own receptacles to the South Dakota PharmaDrop program, bringing the total number of locations managed through the program to 89. A comprehensive list of permanent drug take-back sites can be found at AvoidOpioidSD.com under the Take Action heading and selecting [Safe Medication Disposal](#). This program provides an option for the safe disposal of an individual's nonprescription and prescription drugs, including controlled substances, and is a key component in South Dakota's strategy to address the state's misuse, abuse, and diversion of controlled prescription drugs. If your pharmacy is not currently participating and would like to, please email Melissa.DeNoon@state.sd.us.

Board Meeting Dates

Please check the [Board Meetings](#) page on the Board’s website for the time, location, and agenda for future Board meetings.
