### DSCSA Update – What Do Regulators and Pharmacies Really Need to Know?

#### Activity Overview

---

Although November 2023 appears to be off in the distant future, there is much for the pharmacy community to do to prepare for the implementation of the Drug Supply Chain Security Act (DSCSA), specifically the requirements for product tracing for regulators and dispensers (aka pharmacies). Attendees will be updated on the NABP DSCSA pilot project and what we have learned as to what needs to be accomplished in the time remaining before implementation. A moderated panel will then discuss what regulators and pharmacies really need to know about the DSCSA and how to best prepare for the future.

This home study webinar is a recording of the live activity that was held on May 20, 2022 and was sponsored by Walgreen Co.
