Introduction to the NAPLEX Advantage

Your school or college of pharmacy is participating in the NAPLEX Advantage™ service provided by the National Association of Boards of Pharmacy® (NABP®) to help students prepare for the North American Pharmacist Licensure Examination® (NAPLEX®). Three key features make NAPLEX Advantage an effective tool to help students prepare for the NAPLEX.

1. **Exam-Day Experience:** The NAPLEX Advantage practice exam is designed to be delivered on the school campus in a closed, secure testing environment. Your administrators will create an experience similar to sitting for the actual high-stakes exam.
2. **Unique Practice Exam:** The NAPLEX Advantage practice exam delivered to students is unique to the NAPLEX Advantage service. All items in the NAPLEX Advantage practice exam were previously utilized on past NAPLEX iterations and are not included in any stand-alone Pre-NAPLEX® exams. This ensures test items remain fresh and relevant, delivering a valuable practice experience to help prepare for the actual NAPLEX.
3. **Performance Data:** Your school and each respective student who completes the practice exam will receive performance reports. Individual performance reports will include overall scaled scores (whether pass or fail) as well as a breakdown of performance across each of the NAPLEX competency areas. Schools and colleges will also receive aggregate data for each cohort of students that sit for the NAPLEX Advantage practice exam.

By participating in the NAPLEX Advantage, your school is demonstrating their commitment to the success of you and your peers. On behalf of NABP, good luck, and we hope you find the practice exam experience a valuable one as you prepare for the next steps in pharmacist licensure.

Preparing Your NABP e-Profile

To be registered for the practice exam by your school or college of pharmacy, an NABP e-Profile[®] account with student education is required, if you do not already have one set up.

- The profession type of “Pharmacist Intern” or “Pharmacist Student” must be selected.
- Submit an education record, including the country, school or college, campus, and expected graduation year.

Note: If your e-Profile profession is currently set to “Technician” or “Technician in Training,” you must update this to add education – it does not remove any technician credentials you have submitted or prevent you from submitting future credentials.

Learn more about the [information you will need](#) to [create a new e-Profile account](#).

Preparing Your Device

Most laptops or computers (including personal and school-issued devices) can be used to administer the NAPLEX Advantage. Check the ExamStudio website to confirm your device meets the minimum standards. The ExamStudio Secure Browser should be pre-installed prior to test day. **Note that the exam software is NOT compatible with tablets.**

Installing and Testing the ExamStudio Secure Browser

Before test day, the secure browser must be installed on all devices that students will use during the exam. If you are using your own device, you are responsible for making sure the software is installed and confirming that it is functional.

To confirm that the secure browser is functional, open the application and follow the on-screen instructions. If you can navigate to the access code login page, you are ready for test day. The Organization ID required is “NABP.”

To download and install the secure browser, visit the ExamStudio website at <https://securebrowser.examstudio.com/SecureBrowser/downloads>.

Taking the NAPLEX Advantage Practice Exam

When you take the NAPLEX Advantage practice exam at your school, your experience includes the following:

Check In

Proctors will check you in using your ID to make sure the name on your ID matches your name as it appears on your NABP e-Profile account. Be sure to bring a government-issued ID document with you that matches your e-Profile Connect® name. If it does not match, you may still sit the exam. The ID match is meant to prepare you for the NAPLEX entry process, which is strictly enforced. When sitting for the NAPLEX, if your ID does not match your e-Profile name, you will be refused entry to the testing room.

Open the Secure Browser

After you are seated, you will be instructed to open the ExamStudio Secure Browser. If you are using your own device, you will have already installed the program. If you are using a device provided by the school or college, the program should also have been pre-installed. Speak to a proctor if you are experiencing problems.

Begin the Session

You will select the access code link to begin your session. You will not need to enter a username or password, but you will be prompted to enter your access code. The access code may be provided by the proctor directly or be listed on your scratch paper.

If the exam has not yet begun, you will be taken to a waiting room screen until it does. Once the test begins, you will see a welcome screen.

Make sure that your name at the top of the exam screen is correct. Notify a proctor if a different name is listed.

Non-Disclosure Agreement and Tutorial

Next, you will need to read and agree to the non-disclosure agreement. **If you do not agree or fail to complete this step within five minutes, you will not be able to continue.**

The last step before the exam is to read and follow the instructions to complete a tutorial.

Exam Format

You have 140 minutes to complete the NAPLEX Advantage, which is composed of 100 questions. If you require a time accommodation or any other accommodations for testing, contact your school.

Optional Survey

After the exam, you will be asked to complete an optional three-question survey to provide feedback to NABP. Your feedback on this practice exam is valued.

If you do not wish to complete the survey, you can skip the questions and properly end your exam on the two screens following the survey.

Ending the Session

When you have completed the exam, you may close out your session and exit the secure browser. Follow any end-of-test instructions from your proctors and hand in your scratch paper.

Results

You will receive your results approximately 1-2 business days after the exam in your NABP e-Profile under the Practice Exams section. Examples of candidate performance reports are provided in Appendix A.

Classifications of performance in each competency area are provided as descriptive feedback only. Overall pass or fail decisions are based on your total score, while competency area scores are based on your performance on items in the specific competency area. These results are a reliable reflection of your expected performance until you gain further competence. You may consider contacting your pharmacy school to request assistance. For further details on topics covered in each of the NAPLEX Competency Areas, please refer to <https://nabp.pharmacy/naplex-competency-statements>.

Note: Results for the high-stakes NAPLEX and Multistate Pharmacy Jurisprudence Examination® (MPJE®) only provide a pass or fail result, no scaled score. Competency area performance levels are only provided for fail results on the NAPLEX and MPJE as well.

Appendix A

NAPLEX Advantage™ Candidate Performance Report

Candidate Information

Name:	Student Example	NABP e-Profile ID: 12345678
Address:	1234 Testing Drive Chicago, Illinois 60034	
Date of Birth:	02/29/1999	
Social Security Number:	***-**-9999	
School of Pharmacy:	Univ of Illinois - Chicago	

Examination Information

Exam Result: 65 - FAIL
Exam ID: 123456789
Exam Date: 09/13/2022
Campus/Pathway: Main - Chicago

Performance Results by Competency Area

The results shown for each competency area below may be useful in future efforts to prepare for the NAPLEX® or additional NAPLEX Advantage™ practice exams.

Your performance by section is represented by one of four achievement levels:

- Level 1: Performance is far below meeting the minimum performance necessary to demonstrate competency.
- Level 2: Performance does NOT meet the minimum performance necessary to demonstrate competency.
- Level 3: Performance meets the minimum performance necessary to demonstrate competency.
- Level 4: Performance exceeds the minimum performance necessary to demonstrate competency.

Competency Areas (Approximate Percent of Exam)	Level 1	Level 2	Level 3	Level 4
Obtain, Interpret, or Assess Data, Medical, or Patient Information (18%)		X		
Identify Drug Characteristics (14%)	X			
Develop or Manage Treatment Plans (35%)			X	
Perform Calculations (14%)		X		
Compound, Dispense, or Administer Drugs, or Manage Delivery Systems (11%)		X		
Develop or Manage Practice or Medication-Use Systems to Ensure Safety and Quality (7%)				X

Classifications of performance in each competency area are provided as descriptive feedback only. Overall pass or fail decisions are based on your total score, while competency area scores are based on your performance on items in the specific competency area. These results are a reliable reflection of your expected performance until you gain further competence. You may consider contacting your pharmacy school to request assistance. For further details on topics covered in each of the Competency Areas, please refer to <https://nabp.pharmacy/naplex-competency-statements/>.
