Live Webinar
Scripting Tomorrow: A Pharmacist's Survival Guide to AI

August 13, 2024
1-2:30 PM CDT

Activity Overview

Artificial intelligence (AI) has acutely grown in focus by all facets of life, including health care. There is more buzz and excitement around what is possible, but it is critical for all health care professionals to understand the fundamentals of AI, why there has been a recent focus on it, and how it will intersect with health care practice, as well as considerations on how to use AI tools in different clinical settings. This webinar will examine how AI and technology have impacted health care and why there has been an increase in focus recently. Additionally, the fundamental concepts behind AI and how they impact health care, both now and in the near future, will be discussed, including a deeper dive into the new practice of prompt engineering, which can help utilize generative AI in a safer manner. Finally, this session will examine ethical considerations of AI in clinical practice.

Please note that the webinar capacity is 1,000 participants; registration does not guarantee entry. Those who are unable to join the meeting may purchase the webinar recording that will be posted online when it becomes available.

Activity Topic	Additional Topic Areas
Activity Format	Live Webinar
Universal Activity Numbers	0205-0000-24-059-L99-P 0205-0000-24-059-L99-T
Activity Date	13-Aug-24
Activity Type	Knowledge-based
CE Credits	1.5 contact hours (0.15 CEU)
Activity Fee	No fee

Target Audience

This activity was designed to meet the educational needs of pharmacists and pharmacy technicians in all practice settings.

Learning Objectives

At the conclusion of this webinar, participants will be able to:

1. Explain the driving factors behind the contemporary emphasis on AI in health care.
2. Describe the core concepts of AI and machine learning, particularly focusing on their applications within health care contexts.
3. Discuss prompt engineering and its real-world applications in effectively utilizing AI tools in routine clinical and administrative tasks.
4. Review the landscape of emerging health care technologies, including wearable devices and digital therapeutics, and their implications for pharmacy practice.
5. Discuss the philosophical, ethical, and regulatory dilemmas associated with the integration of AI technologies in pharmacy practice.

CPE Requirements

To earn ACPE-accredited CPE for this activity, participants must:

- be registered as an attendee,
- attend the activity in its entirety,
- answer the self-assessment questions provided by the presenters, and
- submit the activity code online using the NABP CPE submission site located at https://nabp.pharmacy/claimcpe.

To obtain CPE credit, participants must also complete activity and speaker evaluations.

All CPE submissions for the live session must be submitted online within 60 days from the webinar (no later than 12 PM on October 12, 2024).

Presenter

Vishal Amin, PharmD, Owner, Health E Tech Consulting

Registration

Register for the upcoming live webinar. Additional details about participating will be sent via email prior to the webinar.
