LIVE WEBINAR
Hacked! Securing Your Pharmacy Data and Handling the Breach

November 14, 2024
1-2 PM CST

Activity Overview

This webinar focuses on high-profile pharmacy data breaches noted in the media. The presenters will outline the importance of securing both patient and prescription data and describe the value of such data on the dark web. The webinar then offers opportunities for evaluating and considering actionable items that individuals and groups can take to prevent common mistakes associated with data breaches. The activity will conclude with a discussion of a checklist and tool kit aimed at preparing pharmacists for inevitable data security issues to minimize risk and be prepared when data is compromised.

Please note that the webinar capacity is 1,000 participants; registration does not guarantee entry. Those who are unable to join the meeting may purchase the webinar recording that will be posted online when it becomes available.
