LIVE WEBINAR

Navigating the Regulatory Maze: Telemedicine Compliance and Its Impact on Pharmacies and the Public Health

February 13, 2025
1-2 PM CST

Activity Overview

During the pandemic, telemedicine became the norm. With the arrival of GLP-1 agonists intended for weight loss, direct-to-consumer telemedicine is becoming increasingly popular. From a compliance perspective, however, not all telemedicine models are created equal.

This presentation will describe common compliance issues involving telemedicine that NABP has encountered through its accreditation programs, examine how these issues impact fulfillment pharmacies, and use prominent case studies to demonstrate the risks associated with non-compliant telemedicine models.

Please note that the webinar capacity is 1,000 participants; registration does not guarantee entry. Those who are unable to join the meeting may purchase the webinar recording that will be posted online when it becomes available.
