

LICENSURE TRANSFER & CLEARINGHOUSE

Electronic Licensure Transfer Program® (e-LTP™)

e-LTP enables licensed pharmacists to easily transfer their existing pharmacist licenses to one or more states or jurisdictions. We verify that pharmacy licenses held by the applicant are in good standing and screen for disciplinary actions in the NABP Clearinghouse. The findings can be used by member boards to make licensure decisions.

Benefits of e-LTP for the boards:

Immediate access
to processed
applications via
NABP e-Profile Connect

All licenses and NABP
Clearinghouse information
for the applicant are
visible to the board

Seamless integration of
our eligibility services
to expedite approval of
jurisprudence exam candidates

NABP Clearinghouse

Boards of pharmacy can access information contained in the Clearinghouse at any time by logging in to **e-Profile Connect** and submitting a query. Also, if a licensee is licensed in multiple states, each board where the individual is licensed will receive alerts about actions taken by any of the other boards via the e-Profile alerts section of the Clearinghouse.

National Practitioner Data Bank (NPDB) Reporting

Boards of pharmacy are required to report to NPDB final adverse actions taken against health care practitioners, providers, or suppliers. NABP is authorized, according to federal law, to assist with these reporting obligations.

For further information on designating NABP as your board's reporting agent, contact us at clearinghouse@nabp.pharmacy
