HOME STUDY

A New Regulatory Path for Enforcing GLP-1 Compounding Safety and Protecting Public Health

Activity Overview

The strong demand for GLP-1 therapies has led several entities including med spas and wellness clinics to enter this niche and offer customized formulas beyond what is commercially available. This rise in GLP-1 compounding has resulted in state regulatory boards taking necessary action through the enforcement of compounding laws to protect the public from inappropriate or substandard practices, including compounding using research-grade active pharmaceutical ingredients (APIs). Participants will be provided with a scientific overview of compounding GLP-1 drug products with APIs and how to analyze an API certificate of analysis for appropriateness. The session will also focus on the regulatory and political landscape of GLP-1 compounding, including those related to the active pharmaceutical ingredients. Participants will also receive an update from states that have taken action to protect patients from inappropriate compounding of GLP-1s, particularly in med spa and wellness clinic settings.

This home study webinar is a recording of the live activity that was held on May 13, 2026.

Activity Topic	Law
Activity Format	Home Study
Universal Activity Numbers	0205-0000-26-043-H03-P 0205-0000-26-043-H03-T
Activity Date	30-Jun-26 through 29-Apr-29
Activity Type	Knowledge-based
CE Credits	1.5 contact hours (0.15 CEU)
Activity Fee	\$20

Target Audience

This activity was designed to meet the educational needs of pharmacists and pharmacy technicians in all practice settings.

Learning Objectives

At the conclusion of this webinar, participants will be able to:

1. Describe the scientific process associated with compounding GLP-1 drug products.
2. Review a certificate of analysis for GLP-1 active pharmaceutical ingredients for safety.
3. Recognize the regulatory and political landscape of GLP-1 compounding.
4. Discuss model state regulatory language for medical spas and wellness clinics.
5. Recall actions that boards of pharmacy can take to protect the public from inappropriate compounding.

CPE Requirements

To earn Accreditation Council for Pharmacy Education (ACPE) accredited CPE for this activity, participants must:

- be registered as an attendee,
- submit the activity code online using the NABP CPE submission site located at <https://nabp.pharmacy/claimcpe>,
- complete the activity in its entirety,
- answer the self-assessment questions at the beginning of the webinar, and
- review the activity handouts.

To obtain CPE credit, participants must also complete activity and speaker evaluations as well as pass the post-test with a score of 70% or higher.

All home study CPE submissions must be completed online within 60 days from the date you opened the activity.

Presenters

- **Marta Wosinska, PhD**, Senior Fellow, Center on Health Policy at Brookings
- **Thomas Kupiec, PhD**, Chief Executive Officer, ARL Bio Pharma and DNA Solutions, Inc
- **Andrew Funk, PharmD**, Director of Member Relations and Government Affairs, NABP
- **Susan McCoy, RPh**, Executive Director, Mississippi Board of Pharmacy
