Confronting Current Controlled Substance Diversion Issues – How Drugs Are “Lost” in Transit and Strategies to Mitigate Risk Throughout the Supply Chain

Activity Overview

As detailed in [NABP Resolution 121-1-25](#), drugs lost in transit may cause delays or interruptions in patient drug therapy, adversely affecting patient health. Further, diverted drugs may reenter the supply chain through the gray market and pose additional risks to public health. Participants will learn about possible entry points for diverted controlled drugs and regulatory strategies to identify gaps and evaluate reporting requirements. In addition, participants will find out about the latest anti-diversion initiatives used at the pharmacy level to identify and prevent supply chain diversion.

This home study webinar is a recording of the live activity that was held on May 14, 2026, and was sponsored by Walgreens.

Activity Topic	Law
Activity Format	Home Study
Universal Activity Numbers	0205-0000-26-044-H03-P 0205-0000-26-044-H03-T
Activity Date	07-Jul-26 through 06-May-29
Activity Type	Knowledge-based
CE Credits	1.5 contact hours (0.15 CEU)
Activity Fee	\$20

Target Audience

This activity was designed to meet the educational needs of pharmacists and pharmacy technicians in all practice settings.

Learning Objectives

At the conclusion of this webinar, participants will be able to:

1. Identify entry points in drug transit where diversion and drug losses occur.
2. Outline actions licensees and regulators can take to strengthen the supply chain and reduce drug losses while in transit.
3. Recognize red flags or patterns observed in drug loss reporting that signal the need for additional review.

CPE Requirements

To earn Accreditation Council for Pharmacy Education (ACPE) accredited CPE for this activity, participants must:

- be registered as an attendee,
- submit the activity code online using the NABP CPE submission site located at <https://nabp.pharmacy/claimcpe>,
- complete the activity in its entirety,
- answer the self-assessment questions at the beginning of the webinar, and
- review the activity handouts.

To obtain CPE credit, participants must also complete activity and speaker evaluations as well as pass the post-test with a score of 70% or higher.

All home study CPE submissions must be completed online within 60 days from the date you opened the activity.

Presenters

- **Charles "Chuck" Forsaith**, Vice President of Pharmaceutical Cargo Security Coalition, Healthcare Distribution Alliance
- **Matthew Strait**, Principal, Controlled Substance Strategies, LLC
- **Michael Karnbach**, PharmD, Director, Georgia Drugs and Narcotics Age
