The Evolving Landscape of Peptide Compounding

Activity Overview

As federal regulatory activity surrounding peptide compounding continues to evolve, regulators face increasing complexity in oversight and enforcement. This webinar will examine the current regulatory framework governing peptide compounding, including federal activities related to the reclassification of peptides. Attendees will gain a clearer understanding of how these developments may impact compounding oversight.

This home study webinar is a recording of the live activity that was held on October 8, 2026.
