

**NABP**National Association of
Boards of Pharmacy

Using the Secure Browser

- Download and install the **secure browser** no earlier than 3 days before the testing session to ensure the most up-to-date version is used.
- The secure browser is available for Windows and MacOS users. Review the **system requirements** for further details.
- Test the secure browser on your laptop before test day:
 - Open the application and enter the Organization ID: "NABP."
 - Click the "Access Code" link instead of entering a username and password.
 - 💡 A unique access code will be provided to you the day of the exam.
 - Your laptop is compatible if you reach the Access Code page. If you cannot reach the page, a different laptop may be needed for test day.

Approved Items

- Compatible, fully charged laptop
- Pen or pencil
- Valid ID
 - Note: The name on your ID must match your NABP e-Profile®; however, mismatching information will not prevent you from taking the NAPLEX Advantage™. Name matching requirements for test day at Pearson Vue can be found in the **Candidate Application Bulletin**.
- Other items approved by your college

NAPLEX Advantage:

What Students Can Expect

100
QUESTIONS

150
MINUTES

+ additional time for the non-disclosure agreement (NDA), tutorial, survey, and ADA (if applicable and pre-approved).

Note: ADA accommodations must be reviewed and approved by your college of pharmacy.

Taking the Practice Exam

1. Enter your unique access code into the secure browser.
2. If you are verified by the proctor, you will see a waiting screen until the session starts. If you see any other messages, notify the proctor.
3. Accept the NDA to continue the tutorial and exam.
 - a. Note: If the NDA is declined or the screen times out, you will not be able to take the exam and will have to reschedule "Resit" the exam attempt.
4. Remember to check the name on your scratch paper, which should match the name in your NABP e-Profile.
5. If you lose connection during the exam, the timer is stopped and the question is saved. You can try these troubleshooting tips.
 - a. Exit the secure browser and restart the browser using your unique access code.
 - b. Restart your computer if you cannot exit the browser.
 - c. Reinstall the secure browser and relaunch it using your unique access code.
 - d. Notify your proctor, who can assist with troubleshooting.
6. Complete the optional survey to provide feedback to NABP about the testing experience.
