### *Introduction*

The National Association of Boards of Pharmacy® (NABP®) is an impartial professional organization that supports the state boards of pharmacy in protecting public health. Through its accreditation, license verification, and testing programs NABP aims to ensure the public health and safety.

The proper visual identity implementation of NABP's programs is essential for promoting, maintaining, and protecting the trade marks and value of the accreditations. These guidelines are intended to direct correct implementation of the visual brand expressions.

NABP owns all marks for its accreditation programs ("the Marks"). Guidelines have been developed for use by accredited entities wishing to use the Marks in promotional, advertising, instructional, or reference materials. This document includes guidelines for the Marks of the programs for which your organization has earned accreditation. For any other use of the Marks by your organization, you must seek the separate written permission of the NABP executive director/secretary. The press and other parties also wishing to use the Marks must seek the written permission of the NABP executive director/secretary.

Please contact NABP if you observe any abuse or unauthorized use of the Marks.

### *Terms of Use*

Any person or entity using the Marks, in whole or in part, acknowledges that NABP is the sole owner of the Marks and agrees that it will not interfere with the rights of NABP in the Marks, including challenging NABP's use, registration of, or application to register such marks, alone or in combination with other words, anywhere in the world, and that it will not harm, misuse, or bring into disrepute the Marks. The goodwill derived from using any of the Marks exclusively inures to the benefit of and belongs to NABP. Except for the limited right to use as expressly permitted under these guidelines, no other rights of any kind are granted hereunder, by implication or otherwise.

Your use of the Marks constitutes agreement to be bound to the terms of these guidelines. NABP reserves the right to take action including, but not limited to, terminating permission to use the Marks if any use of the Marks does not conform to these guidelines or the terms and conditions of accreditation, or infringes on any NABP intellectual property or other right, or violates other applicable law.

These guidelines do not imply or grant permission to use any other mark including, but not limited to, the NABP logo in any manner other than as required or allowed by these guidelines. Requests for use of any other NABP mark must be submitted separately and in writing to the NABP executive director/secretary.

These guidelines do not grant a right to license or convey the Marks to any third party, nor do they grant a license or right to any other NABP seal, service mark, trademark, or intellectual property. NABP reserves the right, at its sole discretion, to terminate or modify permission to display the Marks at any time.

Minimum size refers to the smallest size at which an NABP accreditation seal may be reproduced and still maintain legibility.

The minimum display size for an NABP accreditation seal on an accredited entity's website is 60 pixels in width (assuming 1 inch equals approximately 100 pixels). For mobile-responsive websites, the Seal should rescale proportionally as the site is displayed in various sizes (eg, to phone, tablet, or desktop sizes).

### Clear Space

There should be at least one symbol's worth of clear space surrounding the entire Seal. Clear space is the area around the Seal that should be free of all other logos, symbols, text, or other graphic elements. This clear space is required to ensure the clarity of an NABP accreditation seal.
